Dispelling the Mix...

The Mantis 4-cycle Tiller/Cultivator

Mantis addresses the needs of landscapers and home gardeners alike, by offering a 4-cycle Honda engine model to their line of mini-tillers. No fuel/oil mix needed for this versatile tiller! The Honda 25cc 4-cycle engine reduces noise, is easy to start, and is more fuel-efficient than standard 2-cycle engines.

The Mantis Tiller's unique patented tines quickly and efficiently till all types of soil – including sod and even hard, compacted clay. The tines spin at 240 RPM, twice the speed of other tillers and are guaranteed against breakage for life. The Mantis 4-cycle Tiller weighs just 25 pounds, and tills a sizable 9-inches wide and up to 10-inches deep. Because it's light and easy to maneuver, the Mantis 4-cycle Tiller is perfect for cultivating and weeding around shrubs, flowers, and ornamental plants. The tines are reversible, which makes shallow cultivating and weeding a breeze.

The Mantis 4-cycle Tiller can be used with many of the versatile attachments of the original 2-cycle Mantis Tiller. This powerful tiller can be used as a border edger, furrower, crevice cleaner, plow, lawn aerator, lawn dethatcher and more.

The Mantis 4-cycle Tiller/Cultivator features:

- 4-cycle 25cc Honda engine
- Quieter operation
- Runs on regular unleaded gasoline - No oil mixture required
- Easier starts
- Added fuel efficiency
- Patented Serpentine Tines that spin up to 240 rpm
- 9-inch tine width - tills up to 10-inches deep
- Tills all types of soil, including sod and even hard clay
- Weighs a mere 25-lbs. (easy to carry and maneuver)
- 7 attachments to choose from makes this tiller an all-in-one unit

The Mantis 4-cycle Tiller comes with a two-year warranty and the patented tines are guaranteed for life against breakage.
